Dr. Bharat Pradhan  
CEO, pfect-NEPAL

Dear Dr. Pradhan and friends of pfect-NEPAL,

On behalf of HeW CO-OP Japan, I would like to express my condolences for all the people who lost their lives in the earthquake in Nepal as well as my profoundest sympathy for all those who are confronting the difficult situation.

As is widely reported, more than 3,000 people were killed by collapsed buildings and still many people are trapped under the wreckage of buildings in Kathmandu. The picture of many people waiting for medical treatment in front of National Hospital tells the overwhelming destruction by the earthquake.

I sincerely hope everyone of pfect-NEPAL, Kathmandu Model Hospital and Kirtipur Hospital are safe and sound. As we had the same experience by the earthquake occurred on March 11, 2011, we understand how difficult the situation that you are confronting is, and we can imagine what kind of support is needed.

Many people may come to these hospitals asking for medical treatment. I would like to show my respects to all the colleagues of pfect-NEPAL who are helping victims in continuing aftershock. Friends, I understand HeW CO-OP Japan would like to support pfect-NEPAL in any way possible. Please feel free to ask for any kind of supports.

Sincerely yours,

藤原高明

Dr. Takaaki Fujiwara (Mr.)

President

Japanese Health and Welfare Co-operative Federation
